Chief Operating Officer, 2015-Present
Office Manager 2003-2004

Superior Environmental Corp, 1992-2015
Vice President of Operations, Sr. Project Manager, and
Hydrogeologist

Professional Experience

Incident Command – Project Support/Supervision. Participated in emergency response spill exercises with various clients, fulfilling the Environmental Unit Leader role. Coordinated drill activities with client, agency, and support contractors when exercising individual response plans.

Provided staff management and overall environmental support during an emergency response for a pipeline spill in southeast Michigan. Worked as a member of the environmental unit, coordinating activities of strike team, task force, and single resources. Performed safety inspections and provided leadership for environmental unit activities, resulting in zero incidents over many months of demanding field activities.

Implemented a Company-Wide Behavioral Based Safety Program. Provided training and leadership to a greater than 80 person staff, implementing a Behavioral Based Safety (BBS) program. The BBS program resulted in the elimination of incidents. Completed safety inspections and mentored staff, creating a “culture” which embraced the BBS safety program, over a 10 year period.

Experienced Project Manager. Successfully negotiated many site closures through the implementation of detailed work plans, remediation technologies, and direct negotiations with regulators. Experienced in consent order compliance, divisibility of harm negotiations, implementation of various remediation technologies, and site closures.
